Ownership

The iPad is owned by the student and remains the private property of the student. The student is responsible for its safekeeping, including routine maintenance, charging, apps and file management, as well as proper use and safe transport. In compliance with the 1:1 iPad Initiative, the device should conform to the recommended specs outlined on the Gilman Website.

Customization

The student is permitted to alter or add files and apps or otherwise customize the iPad to his personal preference. However, a student may not alter the iPad in any way that violates the student AUP. Moreover, while games may be installed, students are reminded that these must be stored in a separate folder **that is not to be opened at school**. It is critical that students proactively manage memory allocation to ensure that sufficient system resources are available for essential academic tasks.

Repair or Loss

Report any damage or loss to Mr. Abrams. An iPad which is misplaced at school will inevitably be located or returned to the office. The student/family is responsible for the repair of a damaged iPad.

School iPads are available for short-term loan while repairs are made to your personal device. The student is responsible for the care of the loaner iPad during this loan period. Each of the iPads is covered by an extended warranty which covers manufacturer's defects. An additional insurance policy (which carries a $100 deductible) provides for theft, burglary, accidental damage (with some exclusions). Insurance does not cover negligence and abuse. If a loaner iPad is damaged by neglect or abuse, it is the family's financial responsibility to cover the cost of repairs or replacement.

GILMAN SCHOOL ACCEPTABLE USE POLICY FOR TECHNOLOGY

Use of the Gilman School's electronic resources is to support School business and its mission of education and service. It is a privilege, not a right. The School expects that your behavior in the electronic world will reflect the same standards of honesty, respect, and consideration that you use in face-to-face communications with others and that you accept the responsibility for maintaining the integrity of all aspects of the School's electronic resources.

- Each user is responsible for all uses and contents of his computer. Giving out personal passwords, access codes or log-in procedures as well as misrepresenting one's identity in electronic communications is not permitted. Computer and email account passwords are confidential; providing your user name and password to anyone, and allowing them to access the School's network or databases in your name, is prohibited.

- The school does not monitor the use of the network or the contents of email as a routine matter. However, such monitoring may occur when required to protect the integrity of the system or to comply with legal obligations. The school reserves the right to access a user's mailbox and files stored on or processed through the School's network in order to help maintain the system's functionality, for compliance with legal requirements and as otherwise required for the wellbeing of the school.

- Unauthorized copying, removing or distributing software violates copyright laws and software license agreements and is prohibited. Installing, modifying, manipulating or otherwise tampering with applications, files and data on the network, or any attempt thereof, is not permitted.
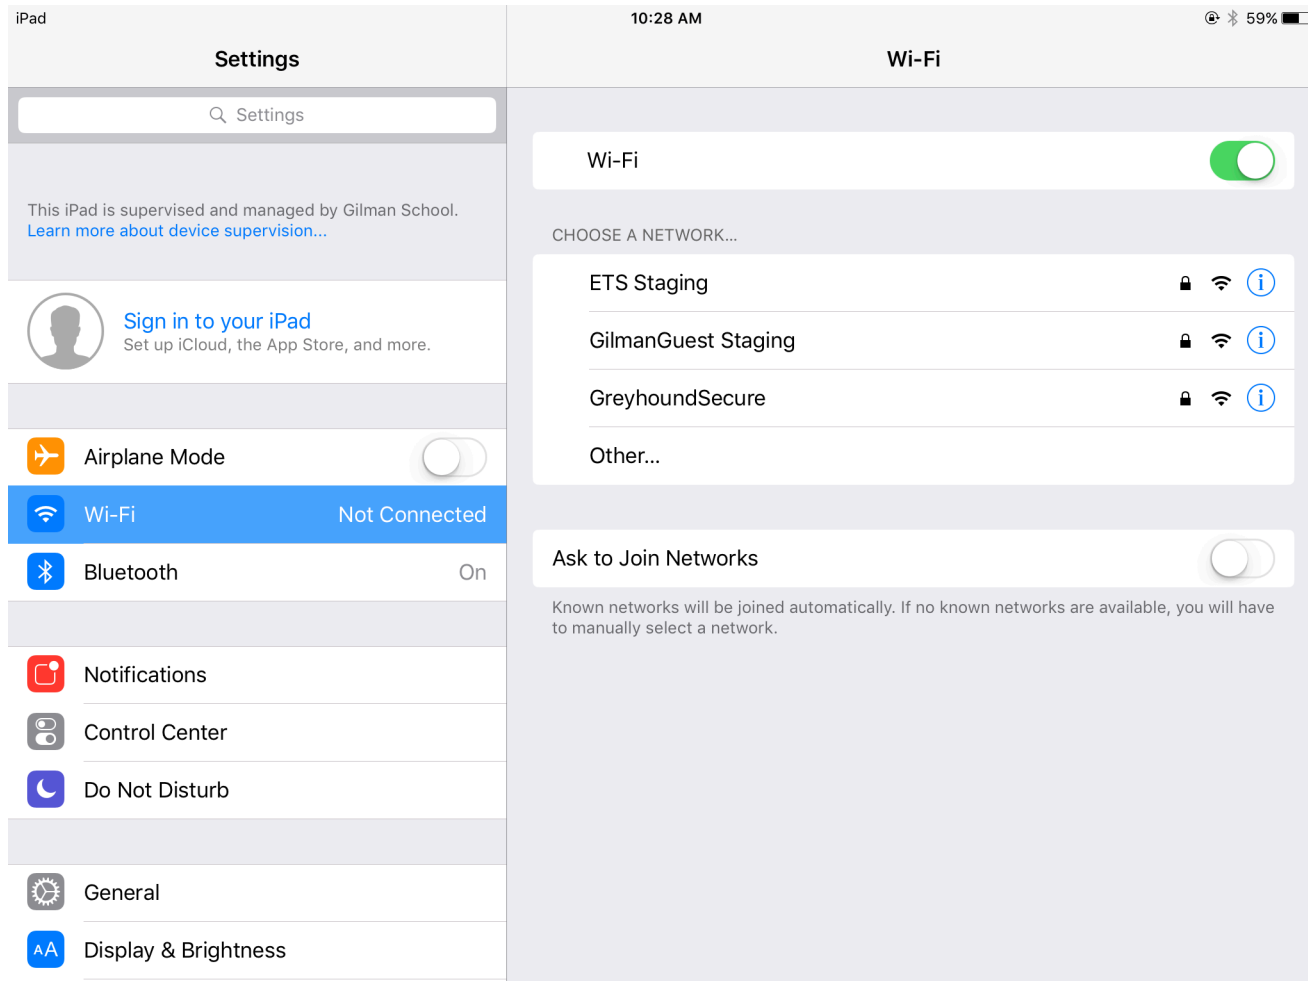

COPPA Form

Dear Parents,

In order for Gilman School to continue to be able to provide your student with the most effective web-based tools and applications for learning, we need to abide by federal regulations that require a parental signature as outlined below.
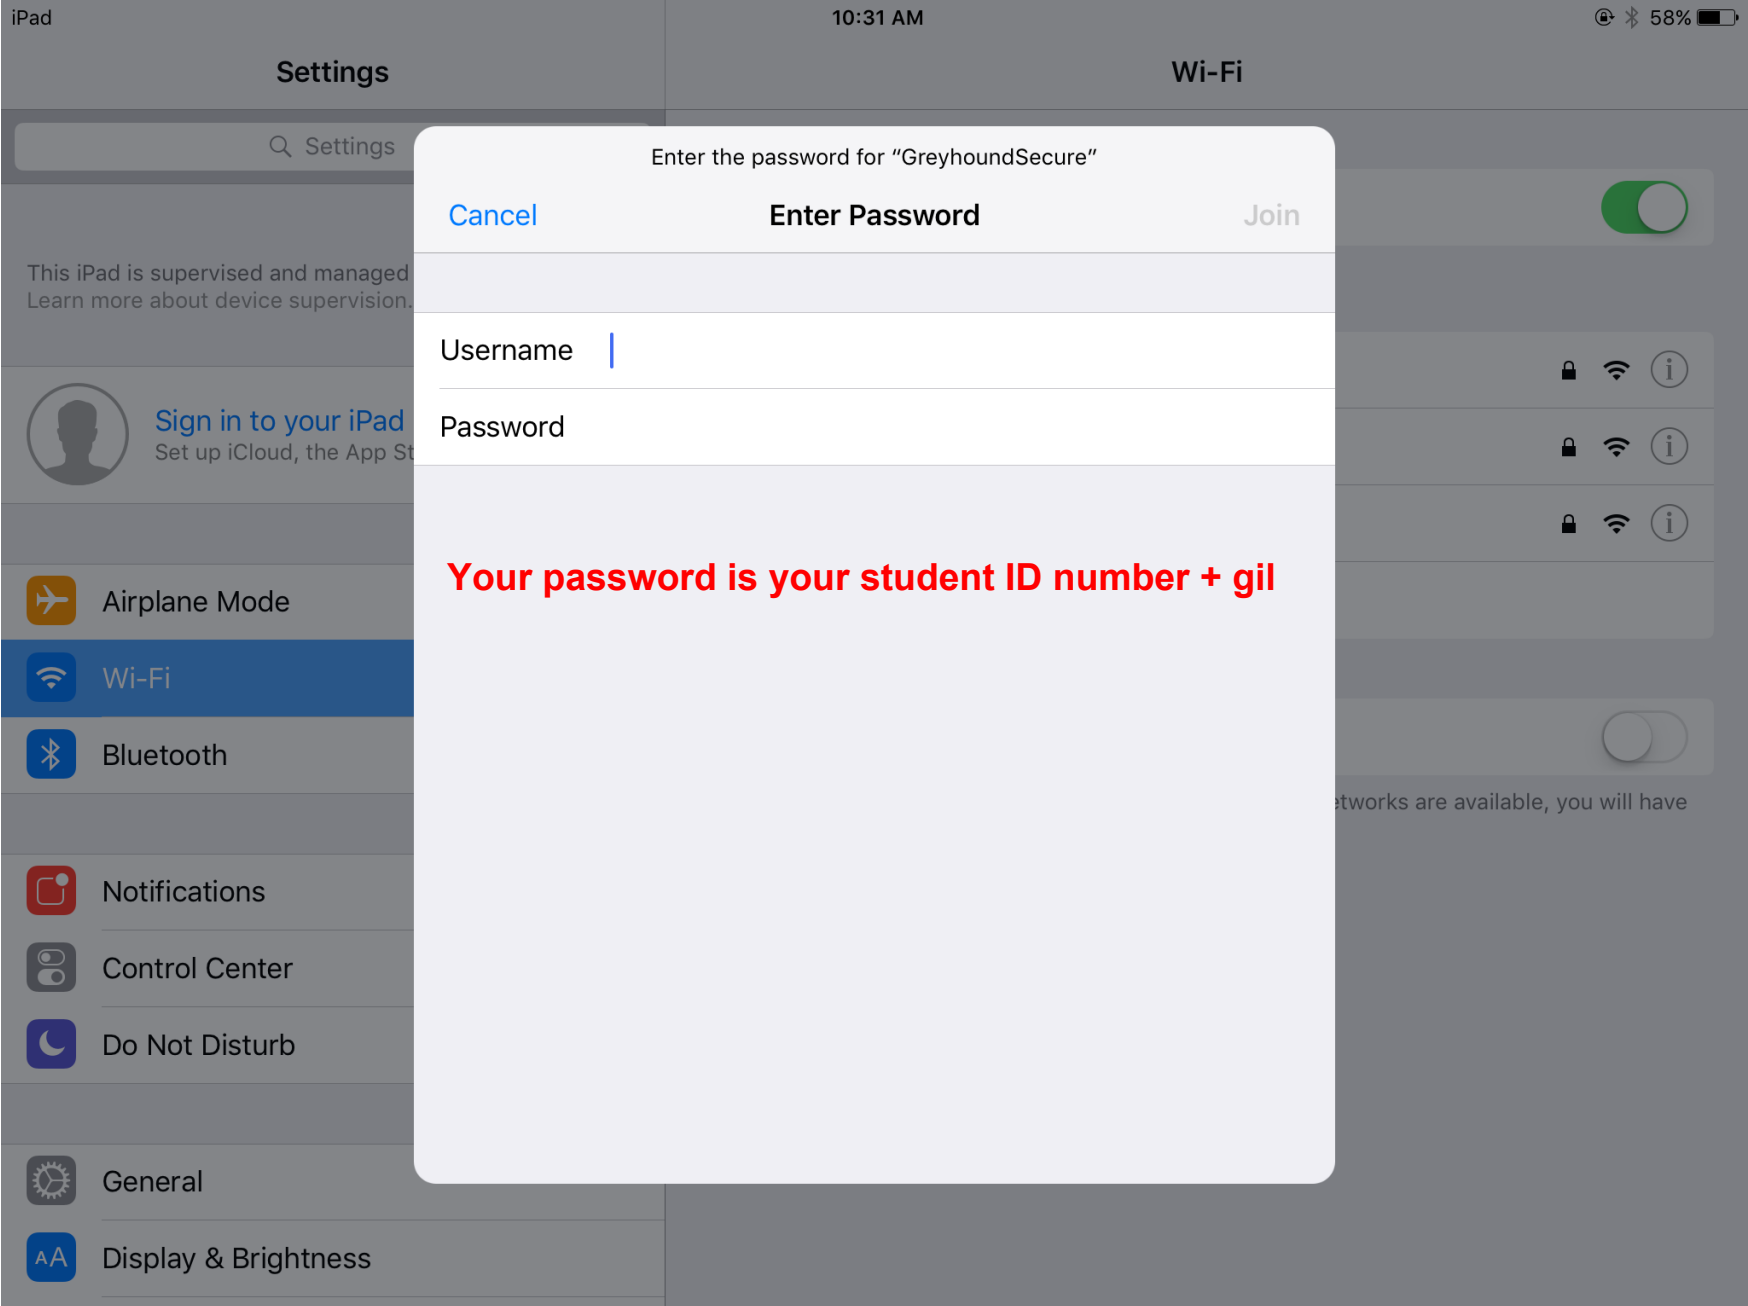

Gilman School utilizes several computer software applications and web-based services, operated not by Gilman, but by third parties. These include Dropbox, Evernote, Google Apps for Education, and similar educational programs. A complete list of the programs with the privacy policy for each can be found at the end of this form.

In order for our students to use these programs and services, certain personal identifying information, generally the student's name and email address must be provided to the web site operator. Under the law, these web sites must provide parental notification and obtain parental consent before collecting personal information from children under the age of 13.

1:1 IPAD OF CHOICE

As we begin the fourth year of our 1:1 iPad initiative, we are eager to offer all students the opportunity to select the iPad model that best suits their learning preferences. The administration and faculty have enjoyed the benefits of being a 1:1 iPad school, and we continue to look forward to exploring new and exciting possibilities for using iPads to enhance teaching and learning.

Middle School students will be required to provide their own iPad.
We strongly recommend an iPad with:

- the latest version of iOS (*version 10 as of June 1, 2017*)

- a screen size of 9.7 inches (**full-size**, <u>not</u> iPad Mini)

- 32GB minimum internal memory, although 128GB is welcome as well.

Prices for iPads range from $329 - $599 or more. Visit the Apple web site to learn more about iPad specifications.

Some important points:

- Please note: The prices referenced above do not include accessories, including:

  - Protective Case or Folio (Required)

  - Bluetooth Keyboard (Required) (Stand alone or built into the case or folio)
